

Define Problem Statements

Date: 30 September 2026
Team ID: SWTID-2026-4040
Project Name: ComicCraft — AI Comic Story Creator Using Gemini Models
Team Leader: Bala Esakki R
Team Members: Sandhiya D, Rithikaa B, Anitha R, Anbuselvi
Team Size: 5
Maximum Marks: 3

Customer Problem Statement

Problem Statement	Customer	Trying to	But	Because	Which makes them feel
PS-1	Aspiring comic creator	Turn an idea into a comic	Story structure and artwork take significant effort	They may lack writing/art skills or time	Blocked or discouraged
PS-2	Student / learner	Experiment with generative AI	Generic AI output may not be organized as panels	Manual restructuring is time-consuming	Frustrated by extra work

Core problem: there is a need for a lightweight workflow that converts a natural-language idea into structured comic panels and supports visual generation.
