Canvas Area	ComicCraft
Customer Segment(s)	Students, aspiring storytellers, hobbyist comic creators and users exploring Generative AI.
Problems / Pains	Turning an idea into sequential panels; writing dialogue; creating visuals; managing multiple creative steps.
Triggers to Act	Need for a quick comic concept, educational demonstration, creative brainstorming or prototype.
Emotions Before / After	Before: uncertain about how to structure the idea. After: receives a generated comic concept to review and refine.
Available Solutions	General-purpose AI chat/writing tools, manual storyboarding, image-generation tools used separately.
Behavior	User supplies a prompt and optional character/setting/scene/style details, then reviews generated panels.
Channels	Browser-based web interface and project repository.
Customer Limitations	Time, writing/art skill, compute resources, API availability and model costs/limits.
Root Cause	Comic creation combines multiple specialized tasks; users must otherwise coordinate them manually.
Your Solution	A single FastAPI workflow coordinating Gemini outline/story generation, Stable Diffusion images, layout and preview/export.
