Demo Step	Action	Expected Evidence
1	Open ComicCraft web page	Input form is displayed.
2	Enter story prompt and creative fields	User inputs are captured.
3	Submit Generate Comic	FastAPI /generate begins orchestration.
4	Show Gemini outline	Five-panel outline/image prompts are produced.
5	Show story expansion	Gemini Pro response supplies narration/dialogue.
6	Show generated images	Stable Diffusion produces panel images when runtime supports it.
7	Show preview	Jinja2 preview displays panel image, description and story.
8	Show export flow	Export-success page is shown; verify actual PDF export separately because exporter.py is absent from supplied ZIP.
