Journey Phase	Stage 1: Idea	Stage 2: Generate	Stage 3: Review / Export
Actions	Enter story prompt, character, setting, tone, art style	Submit form; backend calls Gemini and image generator	Review panels; use export flow
Touchpoint	FastAPI/Jinja2 input form	/generate route and AI services	Comic preview and export-success page
Thought	“Can I turn this idea into a comic?”	“Will the AI produce a coherent sequence?”	“Can I use or share this result?”
Feeling	Curious	Anticipation	Satisfied if output is usable; may refine prompt if needed
Process Ownership	User	Application + Gemini + image generation	User + application
Opportunity	Provide clear field labels	Improve consistency and error handling	Add richer export, history and editing
