Project Name: ComicCraft – AI Comic Story Creator Using Gemini Models
Team Leader: Bala Esakki R
Team Members: Sandhiya, Anitha, Anbuselvi, Rithikaa

The following high-level DFD reflects the documented ComicCraft workflow: user input is validated, sent to Gemini for generation, parsed into structured panels and presented back to the user for download.

Element	Role
User	Provides story idea and receives the generated result.
Input & Validate	Checks that a usable story idea is supplied.
Generate with Gemini	Sends a structured prompt to the Gemini model and receives generated content.
Parse & Display	Separates the response into five panels and renders the content.
Downloadable Story	Provides a saved text representation of the generated comic story.
