

Solution Requirements

Date: 30 September 2026 | Team ID: Not provided | Team Size: 5

Project Name: ComicCraft – AI Comic Story Creator Using Gemini Models

Team Leader: Bala Esakki R

Team Members: Sandhiya, Anitha, Anbuselvi, Rithikaa

Functional Requirements

S.No	Category	Requirement Description	Priority	Status
1	Story Idea Input	Accept a user's comic idea/theme.	High	Implemented in documented design
2	Five-Panel Generation	Generate a structured five-panel narrative.	High	Core feature
3	Scene Description	Produce a scene description for each panel.	High	Core feature
4	Character Actions	Generate character actions per panel.	High	Core feature
5	Dialogue / Captions	Generate dialogue or captions.	High	Core feature
6	Image Prompts	Generate a visual prompt for each panel.	Medium	Core feature
7	Character Consistency	Keep character identity, appearance and personality stable across panels.	High	Prompt-based
8	Download Output	Allow the generated story to be saved for offline use.	Medium	Documented feature

Non-Functional Requirements

Category	Requirement Description	Target / Acceptance Criteria
Performance	Interactive generation suitable for short prompts; depends on Gemini API response time.	Practical interactive use
Scalability	Lightweight single-service design; no persistent database in current scope.	Small/team-scale deployment
Security	Gemini API key kept in environment configuration, not source code.	No hard-coded secret
Reliability	Handle missing/invalid API key, network errors and empty input gracefully.	Informative error handling
Usability	Single-page interface with simple story input and generated panel output.	Beginner-friendly
Maintainability	Modular prompt, parsing and rendering responsibilities in the documented design.	Easy to extend
