

Problem-Solution Fit Canvas

Date: 30 September 2026 | Team ID: Not provided | Team Size: 5

Project Name: ComicCraft – AI Comic Story Creator Using Gemini Models

Team Leader: Bala Esakki R

Team Members: Sandhiya, Anitha, Anbuselvi, Rithikaa

Canvas Area	ComicCraft Content
Customer Segment(s)	Students, aspiring storytellers, hobbyist comic creators, educators and content creators.
Problems / Pains	Difficulty turning an idea into sequential panels; time spent planning scenes/dialogue; inconsistent character details.
Triggers to Act	Need for a quick story concept, class/project activity, creative block, prototype comic idea.
Emotions Before / After	Before: uncertainty or creative blockage. After: clearer structure and a usable comic script concept.
Available Solutions	General AI writing assistants, manual storyboarding, human writing/illustration. These may require manual panel structuring.
Customer Limitations	Limited writing/art skills, limited time, limited compute/resources for advanced image-generation workflows.
Behavior	Enter a short idea, generate, review, refine and download.
Channels	Web interface; local browser; future hosted deployment.
Problem Root / Cause	Comic creation combines narrative writing, sequencing and visual planning skills.
Your Solution	ComicCraft generates a fixed five-panel structured narrative using Gemini, with scene, action, dialogue and image-prompt fields.
